VIA EMAIL:

Re: Public Records Act Request Received May 1, 2019, Request for Additional Information

Dear

This letter responds to your request for records under the California Public Records Act (Gov. §§ 6250 – 6276.48), received via email on May 1, 2019. You requested the following information:

I am looking at a property to purchase that sits just downstream from your wastewater treatment facility. I wanted to learn from someone about the quality of the water that is being released into the creek... whether there have been any incidents of major hazard or pollution... and whether I need to be concerned about the health and safety of my family and pets being in or around the creek.

In response to your question above, we are not familiar with any property available for purchase “that sits just downstream of our wastewater treatment facility.” We are also not familiar with “the water that is being released to the creek...”. To assist us in locating any responsive records for the request, it would be helpful for you to include the property address and/or the Lot and Tract number for the property in question.

If you have any questions concerning this letter, please feel free to contact me at (909) 336 -7117 or email at kfield@lakearrowheadcsd.com.

Sincerely,

Kathleen Field
